

Welcome to EcoTab

*We believe the passion of our members can change the world.
Our mission is to support and encourage them.*

Creating the Future Together

EcoTab offers an innovative and user-friendly platform enabling eco-startups to create, grow and deploy their eco-friendly products and solutions as well-managed and viable eco-projects. EDSP offers support, resources and advice to this non-profit organization.

The EDSP [EcoLabel application](#) provides real-time insight into the achievement of actual sustainable and durable progress for eco-startups, which is registered, measured, rated then transformed into cryptocurrency value, digital shares or contracts and made accessible to the public by using Ethereum Blockchain Technology.

Ethereum is a decentralized platform that runs applications which execute exactly as programmed without any possibility of downtime, censorship, fraud or third-party interference:

<https://www.ethereum.org/>

The [EDSP ECO non-profit foundation](#) was founded by environmentalists with a vision of creating a simple way for anyone to contribute their eco-commitment.

Value Based on Performance and Trust

EcoTab projects are approved, endorsed and monitored by EcoLabel Providers assigned to the EcoLabel Index and transparent Automation.

The Ecolabel Index is the largest global directory of ecolabels, currently tracking 463 ecolabels in 199 countries, and 25 industry sectors:

<https://www.ecolabelindex.com/>

Indicators used to measure durable and sustainable development goals for EcoTab projects are described in the following guidelines:

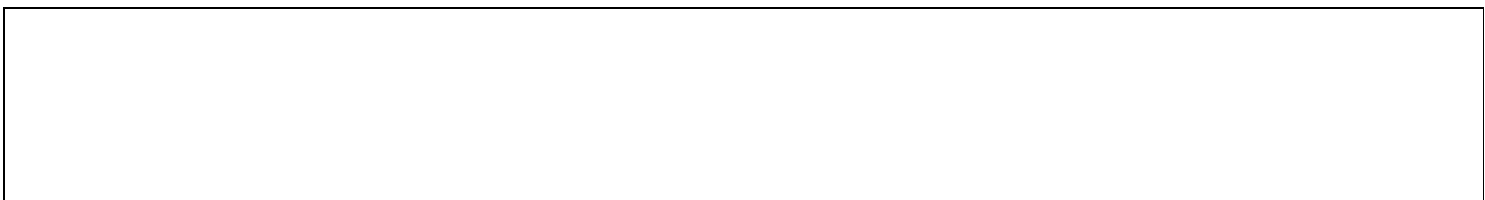

<https://www.un.org/esa/sustdev/natlinfo/indicators/guidelines.pdf>

EcoTab.eco is approved and supported by the .eco domain registrar.

The team behind .eco has been working with the internet and environmental worlds for more than a decade to build the .eco domain.

*.eco is an online home for businesses, non-profits and individuals working for a better world: <https://go.eco/the-eco-story>

EDSP Sustainability Priorities

Affordable and Clean Energy
